## PULP AND PAPER ADVISORY GROUP

Draft resolution approved by Committee II  
on 25 May 1957The Economic Commission for Latin America,

Considering that the secretariat has presented a report on the activities of the Pulp and Paper Advisory Group for Latin America (E/CN.12/434);

Considering the desirability of obtaining reliable data on the proper prices of imported equipment for the pulp and paper industry, and bearing in mind the intensification of this activity forecast for the region;

Considering the possibility that equipment for pulp and paper may come to constitute an important item in the trade of Latin America,

Decides:

1. To recommend that the work of the Pulp and Paper Advisory Group be continued in the countries that so request it;
2. To recommend to the secretariat that it take steps:

/(a) To

(a) To ensure that the Pulp and Paper Advisory Group for Latin America organizes standard budgets for investment in pulp and paper mills with a daily capacity of 50, 100 and 150 tons, in accordance with the main industrial processes and hypotheses, and in sufficient detail for local investors to evaluate their financial requirements and offer them guidance in their purchases of machinery;

(b) To ensure that the Pulp and Paper Advisory Group for Latin America evaluates the possibilities of purchasing machinery for the manufacture of pulp and paper from the countries of the region, as well as of manufacturing specific heavy equipment.
