In accordance with resolution E/CN.12/201 adopted by the Third Session of the Commission in Montevideo, the Executive Secretary initiated a study of Intra-Regional Trade. The work on this project has come forward satisfactorily but has not yet advanced to the stage where any of the material could be presented to this Session. Thus far a detailed analysis has been made of the development of trade between Argentina and Brazil and the principal problems of their present trade relations.

It is planned that as soon as the study is completed the trade relations between other Latin American countries will be studied.
