DRAFT OF RESOLUTION ON FOREIGN INVESTMENTS
APPROVED BY COMMITTEE 2.

ECONOMIC COMMISSION FOR LATIN AMERICA,

CONSIDERING the contribution that an increased flow of foreign investments can make to the economic development and stabilization at a high level of the balances of payments of the countries of Latin America, as well as to the expansion of world production and trade;

TAKING INTO account the report on "National and International Measures for Full Employment" (Document E/1584) prepared by a group of experts and presented to the Economic and Social Council of the United Nations, and in particular the recommendation regarding the necessity of obtaining an "outflow of capital from the industrially advanced countries to the underdeveloped areas.....both adequate and stable" (Recommendation 191, pages 90/91) as a fundamental element of a continuous development policy and an essential requisite of an anti-cyclical policy;

CONSIDERING that in this connection it is desirable to develop adequate and systematic information on the conditions / affecting

affecting the investment of foreign capital in the countries of Latin America,

CONSIDERING that to date Latin America has not obtained an adequate and stable flow of capital which could be increased in favour of the economic development of that region;

CONSIDERING the necessity of an indication of the possible means by which this flow of capital can be increased;

CONSIDERING that the International Bank of Reconstruction and Development, after having directed its first efforts towards the task of reconstruction, has during recent years granted loans to the under developed countries, and taking into account the desirability that international credit institutions should direct their policy toward the well-balanced development of these areas, avoiding uneconomic production and ruinous competition in their supplies of products on the international market;

RESOLVES:

- 1) to take note of the studies on the economic and legal status of foreign investments in selected countries of Latin America prepared by the Secretariat of the Commission in collaboration with the Inter-American Economic and Social Council;
- 2) to take note of the studies made by the Secretariat of the United Nations concerning the financing of plans for economic development, and of the obstacles, including double taxation, which obstruct an adequate flow of investments towards the underdeveloped

/areas

areas;

3) to take note with satisfaction of the policy adopted by the International Bank for Reconstruction and Development in favour of the expansion of under-developed countries and invites it to continue and intensify this policy to the greatest possible extent.

4) to request the Economic and Social Council, and through it the Secretary-General of the United Nations:

- a) That the studies be continued;
- b) that the data relevant to Latin America be considered separately so that, as far as possible, they can be made available to the Economic Commission for Latin America and to its member governments;
- c) that in these studies all factors, including double taxation, be taken into account, and that they indicate as precisely as possible the results obtained;

5) to request the Member Governments to take steps to make known to the Secretariat periodically and in a systematic fashion data concerning the amount, origin and nature of foreign investments, as well as concerning the policies and legal and administrative measures, practices and procedures that affect foreign investments in their respective territories including the taxation system in relation to international double taxation;

/ 6) to request the

- 6) to request the Executive Secretary of the Commission to compile and analyze the data placed at his disposal by the governments and in consultation with the Inter-American Economic and Social Council, complete the study of the economic and legal status of foreign investments in the Latin American countries;
- 7) to recommend to the Executive Secretary of the Economic Commission for Latin America that the studies on foreign investments in Latin America shall include an analysis of the fluctuations which have taken place in the flow of investments.
- 8) to request the Executive Secretary that the Agenda for the next session include the subject of measures intended to obtain an adequate and stable amount of foreign investment in Latin America, in accordance with the resolution of the First Session of the Economic and Social Council concerning Document E/1584 (National and International Measures for Full Employment) and with the report of the Fourth Session of the Sub-Committee on Economic Development (E/CN.1/Sub.3/29).
