Expert Meeting on Crisis and
Development in Latin America
and the Caribbean

Santiago, Chile, 29 April - 3 May 1985

AGENDA

1. The nature, depth and scope of the crisis
2. The unleashing of the crisis and the response of economic policy: results and options
3. The conceptual framework for the reorientation of Latin American development
4. Changes in the relations between the centre and the periphery: limitations and opportunities for Latin America and the Caribbean
5. Changes in the productive system with technological development
6. Changes in the State, social agents and political systems.
