CARIBBEAN DEVELOPMENT AND COOPERATION COMMITTEE

SELECTED STATISTICAL INDICATORS

OF CARIBBEAN COUNTRIES

VOL. V

1992

I N T R O D U C T I O N

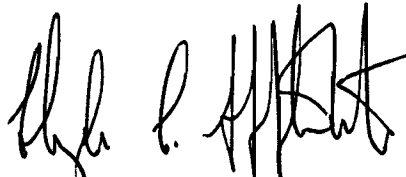

The fifth edition of the document entitled Selected Statistical Indicators of Caribbean Countries accomplishes two purposes. It revises and updates the data set presented in the previous documents while responding to user feedback for the amplification of data coverage. The inclusion of new data sets has been made possible through the cooperation of information units at the national level. The ECLAC/CDCC Secretariat wishes to acknowledge this cooperation and looks forward to developing closer links with the countries. Care has been taken to ensure that the data sets presented in this document remain most accurate.

The contents of the present document may need to be explained for the full understanding of all readers. This document seeks to collect nationally prepared and published statistics which have a greater chance of being methodologically consistent over the years than figures produced from time to time on an ad hoc basis by agents other than the national information units. This type of data preparation is prone to variations in methodology and smoothing which results from preparation by different visiting experts from one period to another. The increased and ever-widening user demand for the document is testimony of its increased use.

However this increased demand for the document at a time when printing costs are on the rise has led to a re-examination of the dissemination modality. The effective use of computer technology has made it possible to disseminate its content in machine-readable form and thus save substantially on the cost of printing more copies of the document. This modernization in dissemination is one aspect of a number of improved means of data delivery being put in place by ECLAC. It relegates hard copy to being at the "lower end" of the spectrum of data delivery media. At the same time, more research is being conducted to make the electronic access and use of the data more versatile and user-friendly. To that extent ECLAC/CDCC continues to produce and improve the softcopy of the document for more versatile use and cost-effective dissemination. The present issue contains context-sensitive help to further assist the user of the software.

Users desirous of obtaining a softcopy of his document are required to send with their request three formatted 3.5 inch 720K diskettes.

The ECLAC/CDCC Secretariat would welcome being informed of any errors or omissions in this document, so that they may be rectified.

Clyde C. Applewhite
Director

SOURCE: Central Bank of Aruba, IMF Staff estimates.

- <1> 1985: Data not strictly comparable with subsequent years as statistics up to and including 1986 were before Aruba's Status Aparte when Aruba was still a part of the Netherlands Antilles.
- <2> Current revenue for 1986, 1987, 1988 not specified due to different statistical grouping: "Other current revenue" and "capital revenue" were added together making a specification for "current revenue" not possible.
- <3> For years 1985-1988 this figure combines Income Taxes and Income Surtax.
- <4> For years 1986-1988 this figure combines Other Current Revenue and Capital Revenue.
