## FOREWORD

The Economic Commission for Latin America and the Caribbean (ECLAC) Subregional Headquarters for the Caribbean/secretariat for the Caribbean Development and Cooperation Committee (CDCC) takes pleasure in presenting the eighth volume of the Major Statistical Publications – Abstracts, in which are listed the main statistical documents currently produced and/or in circulation by those ECLAC/CDCC member countries that have provided such information. Conversely, in some cases, a publication may have been discontinued.

Through the use of this publication, the researcher can be guided to the name of the statistical publication that should be accessed in order to conduct research into the subject matter of interest. Along with a title, the researcher is provided with the publisher of the document, its ISSN document reference, an abstract of its contents and the periodicity of its publication. A new addition to this publication is the provision of the Website addresses of the national statistical office and the central bank of each country, where applicable.

This document serves as a first step to discovering what exists by way of information on nationally produced Caribbean statistics. With current global trends showing heavier reliance on statistical data for decision-making and policy formulation, the researcher can benefit from this easy access to such a database of information.

The ECLAC/CDCC secretariat thanks the member countries that provided timely and accurate updates to their abstracts as an input into this document, and reminds users that the document continues to appear on the ECLAC/CDCC Homepage [www.eclacpos.org](http://www.eclacpos.org).

ABSTRACT: The Consolidated Accounts of the Nation are presented in current prices and, where appropriate, in constant prices. The supporting tables which include the production and capital accounts are presented under two classification systems; the Trinidad and Tobago System of National Accounts (YYSNA) and the International Standard Industrial Classification of all Economic Activities (ISIC). This report also presents the public sector accounts for the period 1990-1996. The public sector, as defined in this report, includes general government, State-owned enterprises and utilities. The income and outlay accounts of the petroleum sector and the balance of payments of Trinidad and Tobago are also presented.
