I. INTRODUCTION

The main thrust of the activities carried out by the ECLAC secretariat during the reporting period in relation to the women of Latin America and the Caribbean was the formulation of an up-dated programme of action for the 1990s that would be consistent with the climate of reform and financial constraint under which the United Nations is now operating.

The process of developing the Regional Programme of Action for the Women of Latin America and the Caribbean, 1995-2001, took place at intergovernmental meetings and through contacts with member countries, non-governmental organizations and academic institutions; the general objective was to achieve consensus on the steps to be taken to improve the situation of women in the region. Significant elements in this process were the preparation of reports by most of the countries; major involvement by non-governmental organizations; broad debate on key topics at the national, subregional and regional levels; and an unprecedented exchange of opinion between non-governmental organizations and governmental institutions and between the various agencies and bodies of the United Nations system.

The function of the secretariat was to support cooperation and coordination between all participants in the process, to prepare summary documents as a focus for debate, and to provide technical assistance to member States in preparing a programme of regional scope that would also contribute to the Platform for Action.

The topic of reform of the United Nations and its financial constraints, which will have major repercussions for the regional commissions, was considered by the member and associate member States during the twenty-sixth session of ECLAC recently held in San José, Costa Rica, from 15 to 20 April 1996. In view of the importance of the topic, the secretariat thought it helpful to make available to the Presiding Officers at their twenty-second meeting a note on the subject, together with the text of the resolution adopted by the member States on reform of the United Nations and its impact on ECLAC (LC/G.1899(SES.26/4)).

II. MAIN ACTIVITIES

1. Sixth session of the Regional Conference on the Integration of Women into the Economic and Social Development of Latin America and the Caribbean

The sixth session of the Regional Conference on the Integration of Women into the Economic and Social Development of Latin America and the Caribbean, held in Mar del Plata, Argentina, from 25 to 29 September 1994, was convened by the Executive Secretary of ECLAC in accordance with the Regional Plan of Action. The Conference elected as Presiding Officers the representatives of Argentina (Chairman); Barbados, Bolivia, Chile, Cuba, Ecuador, Honduras, Netherlands Antilles and Uruguay (Vice-Chairmen); and Mexico (Rapporteur).

Since the session of the Regional Conference served simultaneously as the regional meeting preparatory to the Fourth World Conference on Women (Beijing, 1995), most of the countries of the region had prepared national reports containing an analysis of the situation of women and proposals for future activities. Many representatives of non-governmental organizations, who were attending the conference as members of official delegations or as observers, participated in the meeting of the NGO Forum held afterwards.

On the basis of the documentation prepared by the ECLAC secretariat and the country reports, the Regional Conference assessed the advances that had been made with regard to the situation of women and the obstacles to their progress. It analysed and adopted the Regional Programme of Action for the Women of Latin America and the Caribbean, 1995-2001, and reviewed regional preparations for the Fourth World Conference on Women.

2. Meetings of the Presiding Officers of the Regional Conference on the Integration of Women into the Economic and Social Development of Latin America and the Caribbean

The meetings of Presiding Officers held during the reporting period were attended by representatives of agencies and organizations of the United Nations system, intergovernmental bodies and non-governmental organizations of subregional and regional scope, including those in charge of coordinating the regional and world NGO forums. Four meetings of the Presiding Officers were held during this period; the meetings in Curaçao (30 June-1 July 1994) Netherlands Antilles, and Mar del Plata (24 September 1994) Argentina, considered the documentation and agenda for the sixth session of the Regional Conference; the Presiding Officers also decided to ask the conference to consider a resolution on their functions, which was ultimately incorporated into the Regional Programme of Action (section E). The other two meetings of the Presiding Officers were held subsequent to the Regional Conference. The first of these,

held in Santiago, Chile, from 16 to 18 November 1994, was open to all States members of ECLAC and was called primarily to consider the work accomplished on the Regional Programme of Action at the Regional Conference and to fine-tune the region's preparations for the world conference in Beijing. The second was held in Santiago, Chile, on 3 and 4 July 1995.

3. Subregional meetings

a) Caribbean subregional meeting preparatory to the Fourth World Conference on Women

ECLAC subregional headquarters for the Caribbean organized a meeting to consider the national reports prepared by the Caribbean countries of the subregion for presentation at the sixth session of the Regional Conference and to adopt a general report. The meeting, held on 28 and 29 June 1994, also provided an opportunity to impart the information needed to complete preparations in the subregion for the world conference and to improve coordination between Governments and non-governmental and international organizations.

b) Subregional meeting for Mexico and Central America preparatory to the sixth Regional Conference on the Integration of Women into the Economic and Social Development of Latin America and the Caribbean

ECLAC subregional headquarters in Mexico organized a meeting (4-6 July 1994) to learn what progress had been made on preparing country reports, to disseminate the information needed to complete preparations in the subregion for the world conference, and to improve coordination between Governments and non-governmental and international organizations.

The ECLAC Statistics and Economic Projections Division and Social Development Division collaborated with the United Nations Population Fund (UNFPA) to include a chapter on gender on gender, poverty and participation in the 1995 edition of the Social Panorama of Latin America. The

chapter, written by UNFPA staff, presents an analysis of the situation of Latin American women and its reflection in some important economic and social areas.

The following articles were published in the CEPAL Review: "Women: productivity and labour in the United States" No. 51 (LC/G.1792-P); "Women's formal education: achievements and obstacles" No. 54 (LC/G.1845-P); "Women and migrants: inequalities in the labour market of Santiago, Chile" No. 56 (LC/G.1874-P).

6. Subregional activities in the Caribbean*

A. Activities in 1994

The preparatory activities for the Fourth World Conference on Women began in September 1993, when the Commission on the Status of Women (CSW) announced its guidelines, and continued to the day of the conference, held in September 1995 in Beijing.

* This section of the report was prepared by ECLAC subregional headquarters for the Caribbean.

The first phase entailed the preparation of national reports, which were to be completed by May 1994. The next step was the preparation of a subregional document synthesizing the Commonwealth Caribbean report commissioned by the secretariat of the Caribbean Community (CARICOM) and the national reports of the other countries members of the Caribbean Development and Cooperation Committee (CDCC). The draft of this subregional document was to be tabled for approval at the Caribbean subregional meeting preparatory to the Fourth World Conference on Women, scheduled for June 1994 in Curaçao, Netherlands Antilles.

The ECLAC/CDCC secretariat organized the meeting, which took place on 28 and 29 June 1994, and provided technical assistance to the NGO Forum held parallel to the governmental meeting, from 27 to 29 June. The objectives of the subregional preparatory conference were to:

- a) Approve the subregional report to be presented at the Regional Conference on the Integration of Women into the Economic and Social Development of Latin America and the Caribbean (Mar del Plata, Argentina, September 1994);
- b) Consider the special issue papers which had been prepared; and
- c) Discuss activities which should be undertaken at the national level.

Twenty Caribbean countries attended the meeting, twelve being represented at the ministerial level. Anguilla and Turks and Caicos attended, even though they had not yet attained observer status in the CDCC. The meeting also drew many observers from the following United Nations organizations: the International Labour Organization (ILO), the United Nations Population Fund (UNFPA), the United Nations Information Centre (UNIC), the United Nations Children's Fund (UNICEF), the United Nations Development Fund for Women (UNIFEM), and the World Food Programme (WFP). CARICOM was represented by Mr. Rudy Collins, Assistant Secretary-General, and a team of four advisers and resource persons. Special guests attended from the British Development Division in the Caribbean.

The Secretary-General of the Fourth World Conference on Women, Ms. Gertrude Mongella, addressed the gathering at the formal closing and advised the ministers present to come to Beijing with commitments from their Governments and from intergovernmental agencies to improve the status of women in specific areas; only in that way could they prevent the World Conference from degenerating into an exchange of complaints or a talk shop.

A parallel NGO forum, attended by approximately 100 women from the region, took place from 27 to 29 June 1994. A report from this meeting was presented at the governmental meeting.

The next phase of preparations entailed the successful involvement of the Caribbean subregion in the negotiating process, which began at the sixth session of the Regional Conference on the Integration of Women into the Economic and Social Development of Latin America and the Caribbean. The weaknesses experienced by the Caribbean countries were noted at the meeting, but the subregion was successful in obtaining a follow-up meeting to be held in Santiago, Chile, in November 1994.

The ECLAC/CDCC secretariat convened a teleconference of Caribbean Governments (November 1994) in preparation for the twentieth meeting of the Presiding Officers of the Regional Conference, to be held in Santiago, Chile, in follow-up to Mar del Plata. Participants in the teleconference reviewed critical areas of interest to the subregion addressed at other international conferences and to be addressed

at the Fourth World Conference on Women, shared information about the status of preparations at the national level and made recommendations to facilitate the Caribbean subregion's preparations for the Conference.

The secretariat also participated in drawing up the draft Platform for Action in New York in December 1994 for the World Conference. This experience enabled it better to advise Governments, which was done through the mechanism of a second teleconference for the Caribbean subregion in preparation for the thirty-ninth session of the Commission on the Status of Women and the final meeting (March-April 1995) of the Preparatory Committee for the Fourth World Conference on Women.

B. Activities in 1995

The ECLAC/CDCC secretariat negotiated and facilitated the attendance of technical and ministerial level personnel of CDCC member and associate member countries and provided substantive technical assistance to all Caribbean participants at the twenty-first meeting of the Presiding Officers of the Regional Conference held on 3 and 4 July 1995, in Santiago, Chile. The secretariat also organized a Caribbean caucus on Sunday, 2 July 1995, prior to the meeting of the Presiding Officers.

The secretariat negotiated and facilitated the attendance of non-CARICOM CDCC countries and provided technical assistance to all Caribbean representatives at the UNIFEM/CARICOM/ECLAC retreat on conference diplomacy and negotiations held in Barbados from 17 to 19 July 1995 as part of the final preparations for the Fourth World Conference on Women.

CDCC member Governments present at the seventh meeting of the Monitoring Committee on 14 July 1995 in Tobago were updated on preparatory activities for the Fourth World Conference on Women undertaken in the region by the ECLAC/CDCC secretariat as of June 1995.

The secretariat provided technical assistance to Caribbean Community mission staff in New York regarding CARICOM positions in preparation for informal consultations on the draft Platform for Action for the World Conference (New York, 28 July 1995). The secretariat also provided substantive technical assistance to Governments during the informal consultations.

The secretariat negotiated and facilitated the attendance of governmental and non-governmental personnel and provided substantive services to Governments in attendance at the Fourth World Conference on Women. It also assisted in the organization of a panel of eminent women hosted by the regional commissions during the second week of the Conference and organized and provided substantive services at the inter-agency meeting held on 25 October 1995 on follow-up actions to the World Conference.

With regard to follow-up to the Fourth World Conference on Women at the national level, the secretariat provided technical assistance to the Bureau of Women's Affairs of the Ministry of Foreign Affairs of the Commonwealth of the Bahamas (26 November-2 December 1995). The Government of the Bahamas took as its area of priority the economic empowerment of women through entrepreneurship. At the request of the Government, the secretariat conducted a study on the informal and formal small- and micro-enterprise sector in the Bahamas and took care that the study should include a gender analysis of the situation and recommendations for strengthening the sector and women's position within the sector and improving the sector's productivity and role in expanding employment, particularly for women.

C. Activities in 1996

In other activities in follow-up to the Fourth World Conference on Women, the secretariat provided technical assistance to the Ministry of Women's Affairs of the Government of Saint Kitts and Nevis (26-28 February 1996) by reviewing the work of the Ministry and making recommendations for improving its efficiency and effectiveness and for implementing the Platform for Action.

The secretariat presented an overview of the Platform for Action to a national convention of women's non-governmental organization held in Grenada on 10 March 1996.

The secretariat participated in the eighth meeting of the Monitoring Committee in Port of Spain on 21 and 22 March 1996.

As part of its continuous efforts to ensure adequate follow-up to the Beijing conference, the secretariat conducted a technical mission to Haiti from 23 to 26 April 1996. The Haitian Ministry of Women's Affairs was briefed on efforts under way in the Caribbean to strengthen national mechanisms in support of women. In addition, the possibility of a study on poor female-headed households was explored.
