ECONOMIC COMMISSION FOR LATIN AMERICA

Sixth Session

Bogota, Colombia

MANPOWER

Draft resolution adopted by Committee II on 10 September 1955

THE ECONOMIC COMMISSION FOR LATIN AMERICA

NOTING WITH SATISFACTION the Progress Report on the

Man-Power Study of Latin America (E/CN.12/375) submitted by the
secretariat;

and

BELIEVING:

a) that the knowledge of demographic problems and analyses of the situation and projections of man-power are fundamental elements for the study of the economic situation and for establishing programmes of economic development, as apparent in many of the report prepared by the secretariat; and

b) that for a better utilization of this type of study, it should be carried out in close relation with the work referring to economic development problems in specific areas or countries and, particularly, with analyses and projections made for purposes of programming;

RECOMMENDS to the secretariat that, in consultation and with the co-operation of the Department of Economic and Social Affairs of

/ the United

the United Nations and in collaboration with the specialized agencies concerned, it continue the work begun on man-power in Latin America and organize this study, particularly in relation to the analyses and projections of economic development which the secretariat is carrying out.
