ECONOMIC COMMISSION FOR LATIN AMERICA  
Fifth Session  
Rio de Janeiro

DRAFT RESOLUTION APPROVED BY COMMITTEE III

On 21 April 1953

THE ECONOMIC COMMISSION FOR LATIN AMERICA

CONSIDERING that pursuant to resolution 10 (IV) approved by the Commission at its Fourth Session at Mexico City (E/CN.12/278), the Secretariat has submitted a "Preliminary Study of Possibilities for the Development of the Pulp and Paper Industry in Latin America" (E/CN.12/294), carried out jointly with the United Nations Food and Agriculture Organization, which is currently conducting a world wide survey of this industry;

CONSIDERING that the conclusions of that report indicate that Latin-American resources may become the basis for an industry which would fully satisfy the regional demand for pulp and paper, and which would effectively help to meet the growing world demand for these products in the future;

CONSIDERING that it is of the utmost importance to press forward research into the possibilities of developing the pulp and paper industry in Latin America, to the point of settling

\* This document has been reproduced in New York from the original issued at Rio de Janeiro, Brazil

clearly the technical and economic conditions governing this development;

NOTES with satisfaction the Preliminary Study submitted and the close co-operation achieved between the Secretariat of the Commission and the United Nations Food and Agriculture Organization;

RECOMMENDS that the Executive Secretary:

I. continue, in conjunction with the United Nations Food and Agriculture Organization and with the collaboration of the Technical Assistance Administration and other specialized agencies interested in the subject, the research begun in the Preliminary Study, by means of economic studies similar to those on iron and steel, for the purpose of determining:

- (a) the possibility of utilizing Latin-American resources on a rational and permanent basis for the development of the pulp and paper industry, with special emphasis on the technique of using tropical and sub-tropical woods;
- (b) the possibility of establishing other forestry industries integrated with pulp and paper production, that may lead to better utilization of the forests and help to reduce the cost of pulp and paper;
- (c) the possibility of finding domestic or foreign markets for pulp, paper and the products of the

/related integrated

related integrated industries;

- (d) the possibility of utilizing in the development the pulp and paper industry, bagasse and other industrial or agricultural by-products;

II. organize, in conjunction with the United Nations Food and Agriculture Organization and the Technical Assistance Administration, and in accordance with the said resolution 10 (IV) approved by the Commission at its Fourth Session (E/CN.12/278) a meeting of experts to examine the results of the research work recommended above, in general, to consider the economic and technical aspects of the pulp and paper industry;

RECOMMENDS the member governments of the Commission that they collaborate to the fullest possible extent in the studies and in effecting the meeting of experts.
