FOREWORD

The Economic Commission for Latin America and the Caribbean (ECLAC) Subregional Headquarters for the Caribbean/secretariat for the Caribbean Development and Cooperation Committee (CDCC) takes pleasure in presenting the tenth volume of the Major Statistical Publications – Abstracts. This publication is a one stop for information on all statistical publications currently produced and/or in circulation by all ECLAC/CDCC member countries.

Every effort has been made to ensure that the information in this publication is as comprehensive, clear and up to date as limitations of time and space allow. In order to maximize use to the researcher, each publication is documented using five key fields which include the title of the publication, the publisher, the ISSN number, the frequency of the publication and a brief abstract of the publication’s contents. To safeguard against the exclusion of publications from non-English speaking countries, a field called “language” has been included in this year’s publication. The language field specifies the available languages in which those publications are produced. The websites for the national statistical offices, central banks and other official sources within each country are supplied to facilitate electronic access to the publications documented in this Abstract. This year’s issue also features two new countries: Cayman Islands and Turks and Caicos Islands.

The ECLAC/CDCC secretariat acknowledges the goodwill and cooperation of the statistical offices in our member countries, as well as the various central banks and ministries, in providing the updates and other basic information for this publication. An electronic version of this publication can be downloaded from the ECLAC/CDCC Homepage www.eclacpos.org, under the section Publications.

ABSTRACT: Reports on the performance of the Jamaican economy during the review period. (Latest: 1995)
The Jamaica Survey of Living Conditions (SLC) gleans household data from a subset of the population covered by the Labour Force Survey. Information is collected on consumption, health, education, housing, demographic characteristics, and social welfare and related programmes. The data is of vital importance to the formulation of Government social policies and, in particular, the targeting of the Poverty Eradication Programme.

Features articles in labour force trends, work permit issues, job placements, wage data and other related issues.

The Human Development Report for Jamaica covers a wide spectrum of issues, including conceptualized Human Development Index (HDI) and the Human Poverty Index (HPI).

This publication brings together a series of papers which raise some fundamental issues related to gender equality/inequality.

Provides a range of information on the status of Jamaican children, 0 – 18 years of age.
The study identifies several factors which impact on the behaviour of children within the five–six age group.

This study looks at the gender differences as they relate to motivation and achievement in Jamaica.

This study identifies the patterns and trends of substance abuse, perceptions of availability and attitudes relating to these substances and their effects.

The study examines the socio-economic conditions and coping strategies of workers in three minimum wage categories.

The impact of socio-economic conditions on school performance, cognition and behaviour in a cross-section of 11-12 year old children are examined and the findings shared.

The impact of imprisonment on women and their families, the link between intergenerational poverty and crime and inequality of life experienced by incarcerated women in the Fort Augusta Women’s Correctional Facility makes this very interesting reading.

MDGs Status Report 2005 …Five Years After

This publication provides an internationally recognized benchmark against which the TCI can measure its socio-economic development progress. It shows the country’s status on eight Millennium Development Goals (MDGs), 18 targets, and 48 indicators set by the United Nations to be fulfilled by 2015.

Labor and Employment Situationer

This is a publication on TCI labour statistics which presents time series data in tables and charts on population, labour force, employment in establishments and private households, employment in government service, employment facilitation, labour productivity, labour relations and social security.

National Accounts Statistics

This is the first official publication on the TCI System of National Accounts which presents tables and charts on Gross Domestic Product for the country in current and constant prices, percentage contribution and rate of growth by economic activity, production and cost components of GVA, the implicit GVA deflators, expenditure on GDP and selected economic indicators for the period.

TCI Census Atlas 2001

**TCI Environment: A Closer Look 2004**

This is the first official report of its kind for the TCI and presents statistics and analyses for a number of years on the state of the TCI environment and various environmental issues faced. The main objective of this report is to provide substantive data and information necessary for planning, management and monitoring of natural resources in the TCI in order to minimize and mitigate possible environmental impacts.

**Quarterly Analysis of Trade**

This publication provides an in-depth analysis on trade statistics. It replaces the “Monthly Trade Bulletin” which primarily highlighted TCI’s total merchandise trade deficit, total traditional domestic exports and trade balance.

**TCI Gender Profile**

This report shows the statistics and indicators on key social and gender policy areas in the TCI. It highlights the emerging issues on this developmental area, through a methodical arrangement of thematic statistics and data on the gender issue in its multifaceted dimensions. The gender profiles include sex disaggregated data, where available, on health, education and employment.

**Census Administrative Report**

This report gives a brief introduction on the geography and history of the Turks and Caicos Islands; reflects on the earlier censuses and comments on the statutory authority governing the conduct of the census. The aim of such a report is to provide a comprehensive account of all the activities involved in the achievement of the important objective of Census taking and to aid in the planning and execution of the next and other censuses in view of the lessons learnt from the 2001 Census.

**Population and Census Housing Report – Census 2001**

This publication presented more detailed results of the Turks and Caicos Islands 2001 Population and Housing Census. Included within the confines of this publication are the concepts and definitions for the Census process and a wide range of tables based on the information provided by the public.
**External Trade Report**

This publication shows the TCI’s divisional breakdown of imports by Standard International Trade Classification (SITC) sections, exports, re-exports, balance of visible/merchandise trade, trading blocks and End-Use Classification. The Statistics in this report refer to the merchandised trade between the TCI and the rest of the world.

**Metadata on Social, Vital and Gender Statistics**

This publication provides information on the processes, methods, tools and resources available for the compilation and dissemination of statistics and indicators. Information includes quality concepts and components such as the way the data was compiled and produced; periodicity, timeliness and punctuality (frequency and delays), meaning, limitations, basic data source, relevance (content vs. purpose), accuracy (coverage, sampling, response measurement, processing, assumptions), availability (accessibility and clarity), coherence (comparability and integrity), and completeness (the extent to which a certain domain is covered by statistics).

**Post Enumeration Survey**

This report was done to examine the quality (in terms of contents of the survey instrument) and accuracy (in terms of the coverage of population) emanating from the Census data collected over the census period.

**Turks and Caicos Islands Quick Facts and Figures**

It is a concise, booklet type compilation of TCI’s economic and social statistics from the different government and private institutions.

**Preliminary Census Report 2001**

This report shows the initial results of the 2001 Population and Housing Census. The major topics included therein are cross-tabulations and charts of basic household information such as locality, island, sex, age, nationality, level of education, source of income, total income, type of dwelling etc.

  - Abstract: This publication has manipulated the data in accordance with the classification system recommended by the International Monetary Fund (IMF). A notable feature of this report is that the newly classified data using the Government Financial Statistics (GFS) codes can be matched with the Chart of Accounts (COA) codes and descriptions employed locally. Despite of the fact that the methodology employed is in accordance with internationally accepted guidelines, the domestic presentation is still maintained to allow for transparency and easy interpretation by users.

- **Social Indicators: Trends and Statistics**
  - ISSN Number: -

  - Abstract: This publication shows the TCI’s statistical information on natality, fertility, mortality (births, deaths, abortions and life expectancy) as well as family formation and marital status (marriages and divorces). The vital statistics data provide a valuable source of information regarding the health status of the TCI.
It also provides public health officials with important information used in planning, problem identification and targeting public health programmes and services.
