A. BACKGROUND AND OBJECTIVES

At the thirty-sixth session of the Economic Commission for Latin America and the Caribbean (ECLAC), held in Mexico City from 23 to 27 May 2016, the member States adopted resolution 700(XXXVI), Mexico Resolution, which established the Forum of the Countries of Latin America and the Caribbean on Sustainable Development as a regional mechanism to follow up and review the implementation of the 2030 Agenda for Sustainable Development, including the Sustainable Development Goals and targets, its means of implementation, and the Addis Ababa Action Agenda of the Third International Conference on Financing for Development. The Economic and Social Council subsequently endorsed the establishment of the Forum in its resolution 2016/12.

The Forum of the Countries of Latin America and the Caribbean on Sustainable Development is State-led and open to participation by all Latin American and Caribbean countries. Pursuant to the wish expressed by the countries that the Forum should provide useful opportunities for peer learning, including through voluntary reviews, the sharing of best practices and discussion on shared targets, this session has been organized to allow the member countries of the Forum to report on and share their experiences and challenges in the implementation of the 2030 Agenda for Sustainable Development.

The discussion themes will include:

(i) **Challenges of implementing the 2030 Agenda for Sustainable Development in the Caribbean:** in accordance with the 2030 Agenda, which recognizes that each country faces specific challenges to achieve sustainable development and underscores the special challenges facing the most vulnerable countries, this session has been organized to address the specific problems facing Caribbean countries, such as vulnerability to climate change, natural disasters and high debt levels, and the situation of the least developed countries and small island developing States.

(ii) **Participatory approaches to implementing the 2030 Agenda:** on the basis of presentations on institutional participatory mechanisms and instruments, the authorities responsible for the implementation of the 2030 Agenda in the member countries of the Forum will discuss the different institutional arrangements designed to promote and facilitate the participation of non-governmental stakeholders in the implementation, follow-up and review of the 2030 Agenda.

The secretariat will prepare a guide with questions to steer the debate.

4. **Latin American and Caribbean and European interregional dialogue on implementation of the 2030 Agenda for Sustainable Development**

The Latin American and Caribbean region is strongly committed to the 2030 Agenda for Sustainable Development, as shown by the large number of countries that presented their voluntary national reviews to the high-level political forum on sustainable development, made institutional arrangements for the implementation of the 2030 Agenda or strengthened their national statistical capacity. The aim of this session will be to share experiences and best practices in the implementation, follow-up and review of the 2030 Agenda between Latin America and the Caribbean and Europe. In future meetings of the Forum it is hoped that this peer learning exercise will be repeated with other regions of the world.
5. **The regional dimension of the 2030 Agenda for Sustainable Development: contributions of the United Nations system**

As highlighted in paragraph 4(c) of resolution 700(XXXVI), which invites the regional offices of the United Nations specialized agencies, funds and programmes to participate and engage in the Forum of the Countries of Latin America and the Caribbean on Sustainable Development in a coordinated manner, the United Nations agencies will report on their efforts to support and assist the countries of Latin America and the Caribbean in the implementation of the 2030 Agenda for Sustainable Development and the Addis Ababa Action Agenda, in light of the reform of the United Nations development system\(^4\) being advanced by the Secretary-General.

6. **Dialogues on multi-stakeholder contributions to the implementation of the 2030 Agenda for Sustainable Development**

The Forum will comply with this guidance as follows: Goals 6, 7, 11, 12, 15 and 17 will be addressed at three round tables on the economic dimension, the social dimension and the environmental dimension.

The regional discussions will convene representatives of the governments of member countries of the Forum, civil society, the private sector and international agencies, in order to identify regional gaps, emerging challenges and shared targets on the basis of an integrated approach to achieving the Sustainable Development Goals in Latin America and the Caribbean. The secretariat will prepare a guide with questions to steer the debate.

8. **Special session on artificial intelligence: accelerated technological change**

As stated in the Addis Ababa Action Agenda, the creation, development and diffusion of new innovations and technologies and associated know-how, including the transfer of technology on mutually agreed terms, are powerful drivers of sustainable development. This session will offer an opportunity to consider how to address technology challenges for sustainable development. The topic of accelerated technological change will be discussed at this session.
