Statistical Business Register

Project for the Regional Advancement of Statistics in the Caribbean (PRASC)

Delivering insight through data for a better Canada

Gaétan St-Louis
January 27, 2022

Statistics
Canada

Statistique
Canada

Canada

- The Government of Canada is sponsoring statistical capacity building in the Caribbean (\$19.5 million CAD)
- Initially 7-yr project (2015-2022), extended to 2023
- Statistics Canada is providing technical assistance for:
 - National accounts
 - Business surveys
 - Household surveys
 - Communication and dissemination

Presentation Outline

- How can Statistical Business Register (SBR) data be used
- What is a SBR
- Role of the SBR in the National Statistical System (NSS)
- National Statistical Organisations (NSO) role in managing the SBR (custodian)
- Content of an SBR
- Statistical Units for Survey Sampling
- Demographic Reports
- PRASC SBR for the Caribbean Countries
- Sustainability and Continuity

How can SBR data be used

How can SBR data be used

- To provide a common frame for all business surveys in order to produce estimates that are similar/coherent between all surveys
- To produce a variety of cross tabulation aggregated numbers on business demography (# of businesses by sector of activity or regions, distribution by employment or revenue etc.)
- To integrate multiple administrative data sources together or with NSO survey data

6

Statistics

Statistique
Canada

Delivering insight through data for a better Canada

Canada

How can SBR data be used during unpredicted event (Hurricane or COVID-19)

- To **rapidly** produce a variety of cross tabulation aggregated numbers on business demography
 - Business and establishment counts by sector of activity to determine # of businesses impacted
 - To determine the impact on employment by sector of activity and region when closing sectors
 - To focus on certain size of businesses for employments and revenue

How can SBR data be used during unpredicted event (Hurricane or COVID-19)

- To integrate multiple administrative data sources such as Tax data, Social Security data, Financial Institution data etc. to produce rapidly, with minimal cost, information on financial situation of Small and Medium size Enterprises (SME)
- To identify specific institutions and to produce a list and counts to assist politician in their decision making during emergency situation (eg: In Canada, identify Retirement Home across the country to take special protection measures)

What is a SBR

What is a Statistical Business Register (SBR)

- It is a repository of all businesses that act as a frame for a given country. It contains:
 - business tombstone information,
 - size variables (Revenue, employment, etc.),
 - classification variables (ISIC, geography etc.),
 - statistical indicators (Enterprise and Establishment)
 - business status indicator
 - other business information

SBR Coverage

- All businesses engaged in producing goods and/or services **including farm operations**
 - Corporations
 - Sole Proprietorships
 - Partnerships
 - Trusts and Special Funds
 - Joint Venture
 - Branch Operations
 - Governments
 - Non-profit organizations
 - Informal Sector

Role of the SBR

Role of the SBR for the NSS

- Business Frame:
 - Tool for survey sampling and stratification for economic surveys
 - Integrate surveys and administrative data, thereby reducing response burden and cost
 - Manage/update business & respondent information
 - Support data collection (Contact Information)
 - Monitor/control response burden
- Analytical tool:
 - Analyse the business population
 - Run longitudinal studies
 - Disseminate business demographic statistics

Advantages of an SBR for the NSS

- Well defined basic business concepts anchored on International SNA Concepts
- Alignment with international practices
- To rapidly produce statistics on business demographics for decision makers in case of unpredicted event.
- Access to more coherent and representative official statistics for managing programs and making informed decisions
- Access to a larger variety of cross tabulation aggregated numbers on business demography (# of businesses by sector of activity or regions, distribution by employment or revenue etc.)

Advantages of an SBR for the NSS (Cont'd)

- Access to an improved industry classification (ISIC)
- Reduce the overall business response burden by having a well maintained list of businesses
- Increase use of collected data (administrative data) resulting in more efficient use of public funds
- Higher efficiency in producing ad-hoc surveys to respond to special demands from NSS partners and others
- Produce official statistics that are internationally comparable

NSO's role in managing the SBR (custodian)

Statistics
Canada

Statistique
Canada

Delivering insight through data for a better Canada

Canada

NSO's Role in Managing the SBR

- To compile and maintain a complete list of businesses
- To ensure the use of internationally recognized business concepts (SNA 2008)
- To identify the best data sources to maintain the SBR in a cost effective manner
- To contact business and profile large enterprises to delineate the business structure
- To ensure the security and confidentiality of the SBR data
- To produce business basic business demographic tabulations
- To respond to special requests for aggregate business information from outside

Content of an SBR

Legal vs Operating

Legal Entity (LE)

= Enterprise

- Company
- Business

Operating Entity (OE)

= Establishment

- Trade name
- Branch
- Business Location

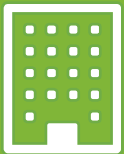

SBR Components

The SBR is composed of 3 main building blocks

LEGAL / ENTERPRISE

OPERATING / TRADE / ESTABLISHMENT

STATISTICAL

LEGAL Component

- Legal side of a business
- Referred to as a Legal Entity
- Has the capacity to:
 - ✓ Negotiate contracts
 - ✓ Assume financial obligations
 - ✓ Pay off debts
- Typically registered and they are the level that reports to the various offices such as Registrar's office, Inland Revenue or Social Security

SNA = An **enterprise** is the view of an institutional unit as a producer of goods and services. It is capable, in its own right, of owning assets, incurring liabilities and engaging in economic activities and in transactions with other entities. ²¹

OPERATING Component

- Associated with the daily activities of a business
 - production of goods and/or services
- Referred to as an Operating Entity
- Physical location of a business

**TRADE NAME
ESTABLISHMENT**

SNA = An **establishment** is an enterprise, or part of an enterprise, that is situated in a single location and in which only a single productive activity is carried out or in which the principal productive activity accounts for most of the value added

Statistical Component

- Delineate Enterprise vs Establishment
- Use to identify the level at which a business can be selected for survey sampling
- Generated automatically by predefined business rules on the SBR

**STATISTICAL
INDICATORS**

Enterprise = Legal Entity

Establishment = Operating Entity

Key variables on an SBR

Statistical Units for Survey Sampling

25

Statistics
Canada Statistique
Canada

Delivering insight through data for a better Canada

Canada

Survey Universe File (SUF)

A copy of the SBR variables stored in a table that could be accessed by NSO employees

Used to:

- Review frame universe(s)
- Validate records
- Identify potential duplicates
- Produce demographic statistics and analysis
- ***Survey sampling***

Business Types

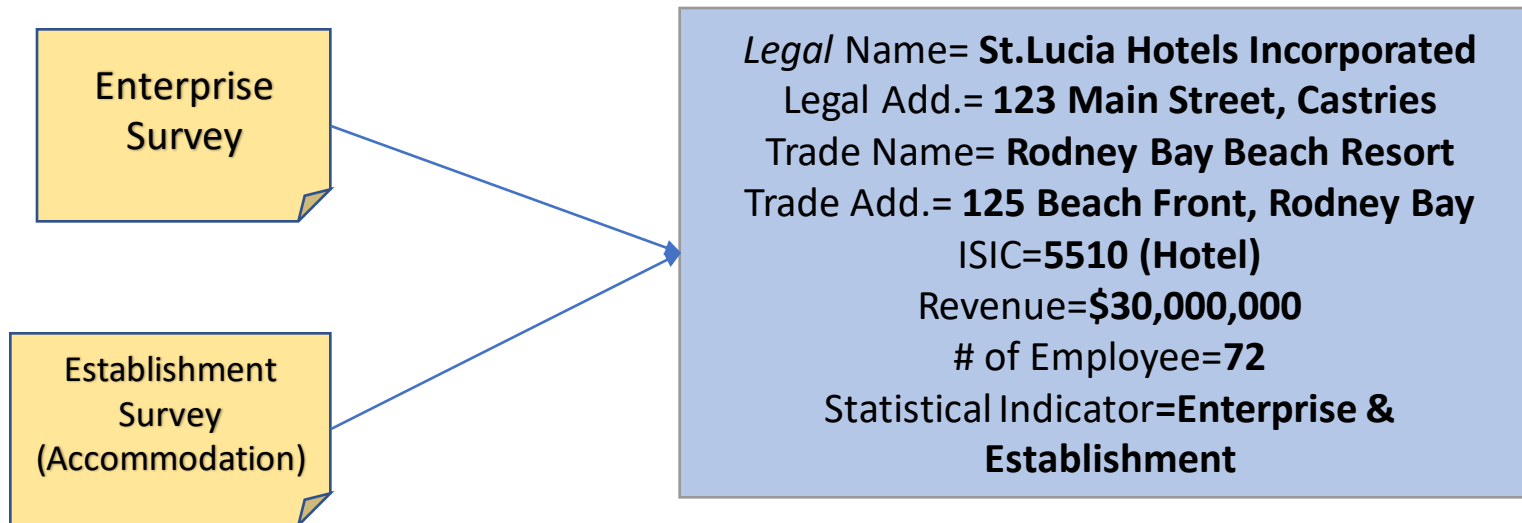

Simple Business

- Single entity engaged in:
 - Single industry and
 - Operating at single location
 - **Eligible for all economic surveys (2 Statistical Flags: Enterprise and Establishment)**
 - Eligible for administrative replacement of survey data

Complex Business

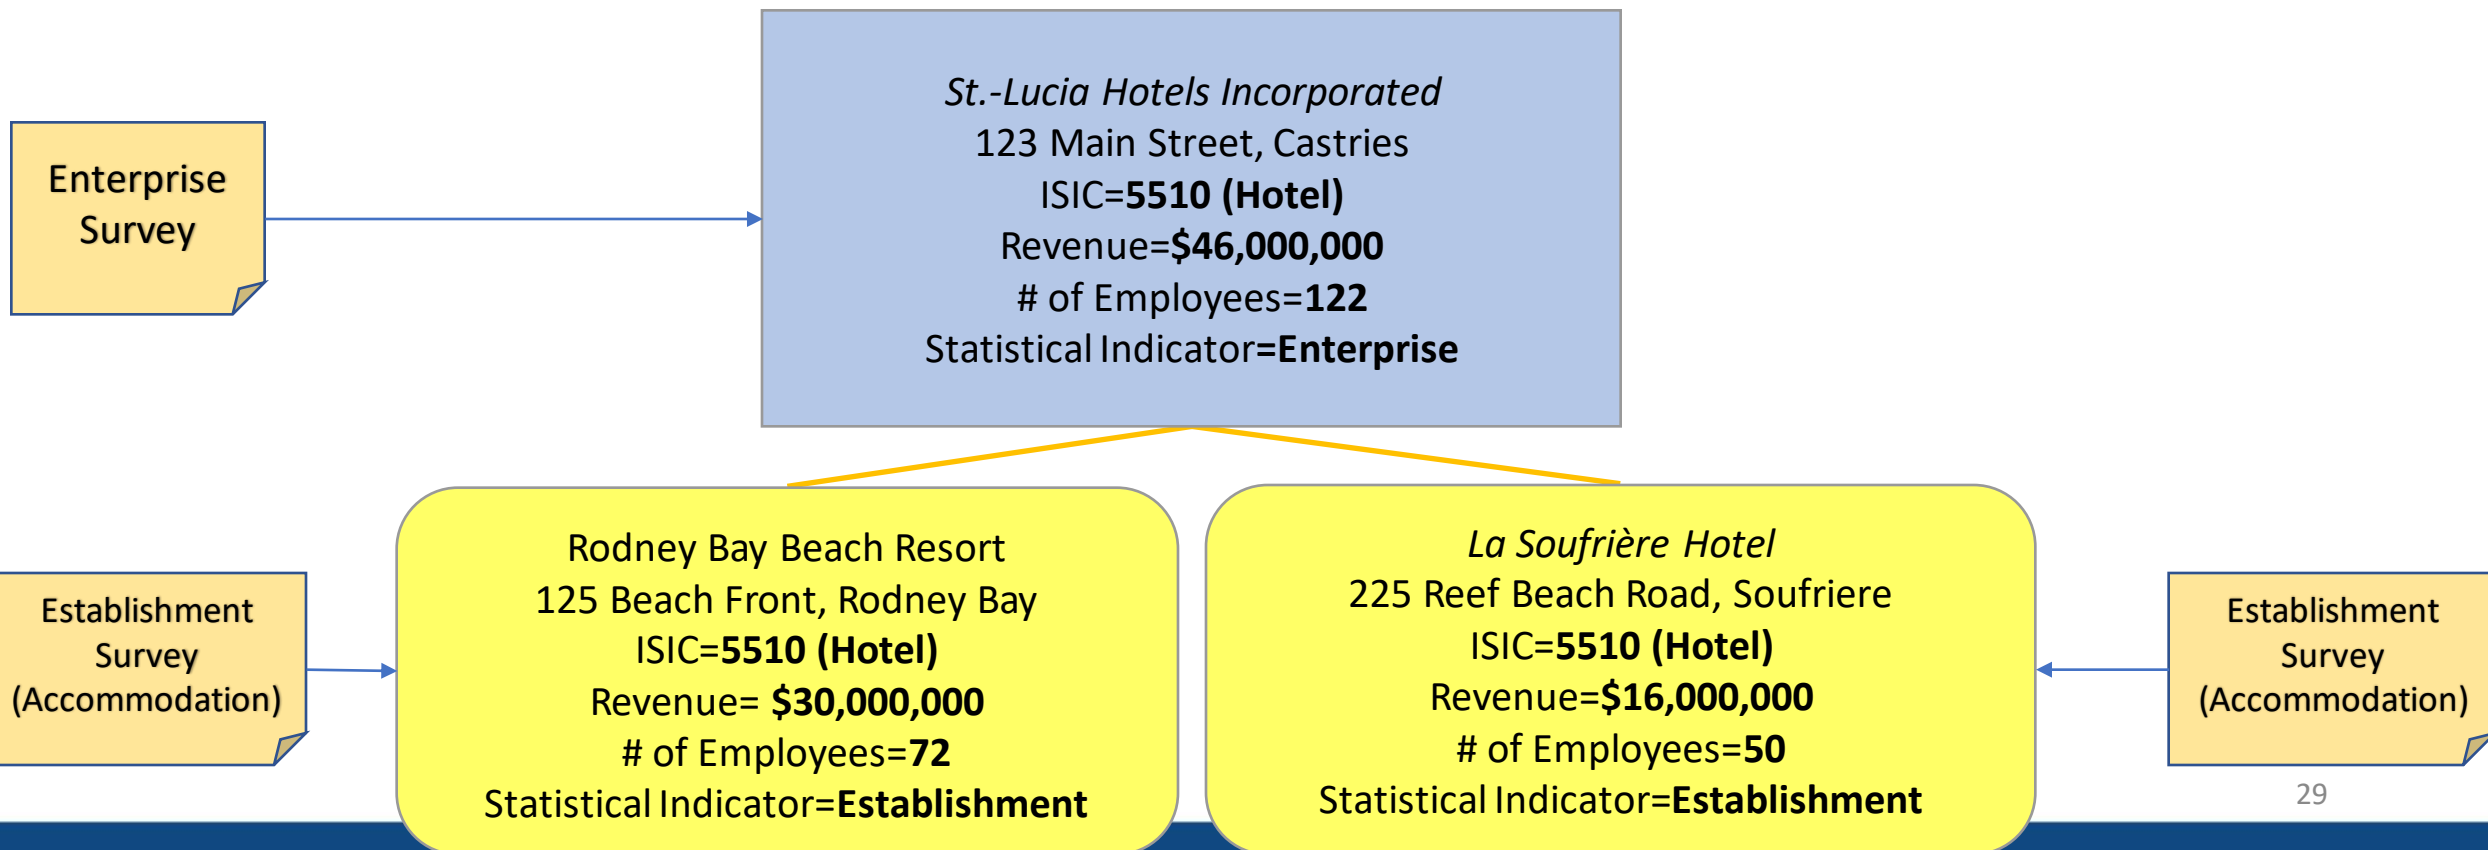

- Multiple entities engaged in:
 - Multiple industries and/or
 - Operations at multiple locations and/or
 - Members of a legal family
 - Statistical Flags assigned based on the reporting capability of the unit
 - **Surveys will target the desired units based on the statistical indicators (Enterprise or Establishment)**
 - Potentially eligible for administrative replacement of survey data

Example 1 – Simple Business Enterprise and Establishment Surveys

Example 2 – Complex Business – Multi Establishments

Enterprise and Establishment Surveys

Example 3 – Complex Business – Multi Establishments

Demographic Statistics & Analysis

Survey Universe File (SUF)

A copy of the SBR variables stored in a table that could be accessed by NSO employees

Used to:

- Review frame universe(s)
- Validate records
- Identify potential duplicates
- ***Produce demographic statistics and analysis***
- Survey sampling

SBR Demographic Reports

- Use the SUF to generate the report
- Basic reports to identify total revenue, sales and employees at the Enterprise and Establishment levels
- Can be generated by Parish or Sector
- Includes Alive units only with statistical indicators

Number of Establishments
Total revenues
Total sales
Total # of employees
Total # of male employees
Total # of female employees

Number of Enterprises
Total revenue
Total sales
Total # of employees
Total # of male employee
Total # of female employees

Viewing a Demographic Report

Demographic Reports

Survey Universe:

Sum By:

Parish	NumberOfEstablishments	EstablishmentsTotalRevenue	EstablishmentsTotalSales	EstablishmentsTotalNumberOfEmp
Saint George	1	3254741	0	91
Saint Mary	1	748352	0	53
St. George	8	38973337	0	925
St. John	10	30215423	0	332
St. Mary	11	53534583	0	976
Unknown	19	65179317	0	2014
Total	50	191905753	0	4391

Using the Demographic Reports

- Can produce basic business counts for dissemination
- Can compare month-to-month, quarter-to-quarter or year-to-year
 - Business counts (Enterprise and Establishment)
 - Changes in revenue, sales and / or employment
 - ISIC changes
- More demographic reports can be created using the SUF and imported into Excel
 - Longitudinal analysis
 - Addition of characteristic variables for more detail statistics

Generic SBR Applications

In order to fully support the Caribbean Countries, StatCan has developed two Generic SBR applications.

1. An **Excel** SBR Application (Small size application)

- For small business populations
- For 1 to 3 users
- Minimal business rules
- Easy to maintain and doesn't require IT expertise

Generic SBR Applications (cont'd)

2. An elaborated SBR with a database management system (SQL Server)

- For larger business populations
- Permits multiple simultaneous users through an elaborated GUI
- Customized graphical user interface
- More elaborated business rules
- High security control and access
- Need some IT expertise for creating and maintaining the database

Delivering insight through data for a better Canada

Canada

Sustainability

- In-country missions with a series of presentations, documents and hands-on exercises
- Meeting and discussion with administrative data partners
- Development of generic SBR system in Excel (for smaller business populations) and VB.Net with SQL Server (for larger business populations)
- Development of training materials, user's guide, technical guide and the programming code
- Subject matter and IT personnel have been trained
- Both the Excel and SQL versions are built on similar concepts which will permit the countries to support one another once PRASC ends

Continuity

- NSO to complete the acquisition of needed administrative data
- Stabilize the SBR application
- SBR training has been completed in November 2021
- The SBR application has been deployed to all participating Caribbean countries
- Support the application until summer 2022
- Still trying to identify a statistical organization or regional organization to support the SBR application after 2022

You can contact the PRASC team at:
