*The Economic Commission for Latin America,

1. *Takes note with satisfaction of*

(a) The progress achieved under the Expanded Programme of Technical Assistance;

(b) The efforts being made by governments and by the Technical Assistance Board to co-ordinate their activities in this field;

istration and which is being carried on at the Commission's headquarters;

(g) The growing importance attached by governments and by participating organizations to technical assistance designed to give effect to the recommendations made in earlier studies and reports; and

(h) The resolution of the Technical Assistance Committee of the United Nations Economic and Social Council requesting the Technical Assistance Board and participating organizations to liberalize the rules governing the grant of equipment as an integral part of technical assistance;

2. *Expresses* its concern at the financial limitations from which the programme suffers and which have retarded the rate of progress previously attained;

4. *Urges* the Economic and Social Council to recommend to the General Assembly that it make satisfactory arrangements based on the study, concerning the feasibility of working out estimates for the programme on a basis longer than a one-year period, now being undertaken in conformity with General Assembly resolution 621 (VII);

5. *Recommends* that governments which have not yet done so, take appropriate administrative steps for working out national arrangements designed to ensure adequate co-ordination between the existing activities of the Expanded Programme, of the Organization of American States and of other programmes;
