| Table 1: Variation in trade values |  |  |
| :--- | ---: | ---: |
| January-September 2018 vs. same period 2017 |  |  |
| (Percentages) | Exports | Imports |
| World | $11.2 \uparrow$ | $12.7 \uparrow$ |
| Latin America and the Caribbean | $9.3 \uparrow$ | $12.6 \uparrow$ |
| Asia-Pacific | $10.1 \uparrow$ | $14.9 \uparrow$ |
| China | $12.2 \uparrow$ | $20.2 \uparrow$ |
| United States | $9.1 \uparrow$ | $9.3 \uparrow$ |
| Europe | $12.2 \uparrow$ | $12.4 \uparrow$ |
| EU-28 (excluding intra-EU trade) | $11.6 \uparrow$ | $13.3 \uparrow$ |

## Key messages

$>$ In the first nine months of 2018, Latin America and the Caribbean exported 789.8 billion dollars, while its imports reached $\mathbf{8 0 5 . 2}$ billion dollars. Regional trade increased against the first nine months of 2017, but less than the world's average, both in exports (+9.3\% vs. $+11.2 \%$ ) and in imports ( $+\mathbf{1 2 . 6 \%}$ vs. $+12.7 \%$ ). Compared to other regions, Latin America and the Caribbean's exports grew the least. Its imports expanded more than those of Europe and the United States, but less than those of Asia and the world.
$>$ The region closed the third quarter with a trade deficit of $\mathbf{1 5 . 4}$ billion dollars. The surpluses of Brazil, Venezuela, B. R., Chile and Peru failed to compensate for deficits in the Andean Community, Central America, Mexico and the Caribbean. At the national level, the highest export growth was registered in Bolivia, P. S., followed by Ecuador, Colombia and Chile, reflecting the recovery of the prices of the commodities exported by these countries. By partners, the biggest deficit was with Asia (-77.8 billion dollars), with a level similar to the surplus with the United States ( 83.5 billion dollars).
$>$ Mining and fuel products were the fastest growing category both in exports (+17.2\%) and imports (+33.1\%); although in the first case they did so at a lower rate than in the same period of 2017. In addition to the $33.1 \%$ increase in the price of the oil exported by the region, prices of nickel (+36.5\%), aluminum ( $+12.2 \%$ ), iron and steel products ( $+15.8 \%$ ), copper ( $+11.8 \%$ ), and zinc ( $+8.7 \%$ ) continued to increase. By contrast, numerous agricultural products had drops in their prices, in particular sugar ( $-24.7 \%$ ), coffee ( $-10.7 \%$ ) and food oil and oilseeds ( $-8.1 \%$ ).
> Intra-regional trade grew 11.2\% in the first nine months of 2018 and represented 16.9\% of the region's total exports (if Mexico is excluded, its share rose to $22.5 \%$ ). The United States remained as the region's main partner ( $43 \%$ of total exports and $32 \%$ of total imports); but China -its second trading partner- led in terms of growth, both in exports (+22.4\%) and imports (+15.6\%).

## NOTES

All values are expressed in US dollars.
The differences in the values of total trade between tables 2,4 , and 6 are due to differences in the trade flows by product and by partner as reported by some countries.
Abbreviations: LAC = Latin America and the Caribbean, CAN = Andean Community, CARICOM = Caribbean Community, P.S. = Plurinational State, MCCA = Central American Common Market, MERCOSUR = Southern Common Market, B.R. = Bolivarian Republic.
Subregions: CARICOM includes figures from Antigua and Barbuda, Bahamas, Barbados, Belize, Dominica, Grenada, Guyana, Haiti, Jamaica, Saint Kitts and Nevis, Saint Lucia, Saint Vincent and the Grenadines, Suriname, and Trinidad and Tobago; Pacific Alliance includes figures from Chile, Colombia, Mexico and Peru; Other Asia includes figures from Brunei Darussalam, Cambodia, Hong Kong (Special Administrative Region of China), Philippines, India, Indonesia, Japan, Lao People's Democratic Republic, Macao (Special Administrative Region of China), Republic of Korea, Taiwan (Province of China), Thailand, Singapore and Vietnam.

## Recent activities of the International Trade and Integration Division (ITID)

## Events

* Course: Use of the Andean Community Subregional Input-Output Table and the South American InputOutput Table (11-13 December 2018, Bolivia).
* Seminar: Analysis of Value Chains using the Andean Community subregional Input-Output Table (11 December 2018, Bolivia).
* Course: Use of the MERCOSUR Subregional Input-Output Table and the South American Input-Output Table (5-7 December 2018, Brazil).
* Seminar: Analysis of Value Chains using the MERCOSUR subregional Input-Output Table (6 December 2018, Brazil).
* Seminar: Third academic international seminar, Latin America - Asia Pacific Observatory "Towards an integral relationship between Latin America and Asia Pacific" (7-8 November 2018, Uruguay)
* Course: Use of the Andean Community Subregional Input-Output Table and the South American InputOutput Table (14-16 August 2018, Peru).
* Seminar: Analysis of Value Chains using the Andean Community subregional Input-Output Table (14 August 2018, Peru).

## APPENDIX

## 1. Sources

Figures for Anguilla, Antigua and Barbuda, Dominica, Grenada, Montserrat, Saint Kitts and Nevis, St. Lucia, and St. Vincent and the Grenadines are based on data from: Eastern Caribbean Central Bank.
Figures for Argentina are based on data from: Instituto Nacional de Estadística y Censos and Centro de Economía Internacional. Figures for Bahamas are based on data from: The Central Bank of the Bahamas.
Figures for Barbados are based on data from: Barbados Statistical Service and United Nations Commodity Trade Statistics Database (Comtrade).
Figures for Belize are based on data from: Statistical Institute of Belize.
Figures for Bolivia, P.S., are based on data from: Instituto Nacional de Estadísticas.
Figures for Brazil are based on data from: Ministerio do Desenvolvimiento, Indústria e Comércio Exterior.
Figures for Chile are based on data from: Banco Central de Chile.
Figures for Colombia are based on data from: Departamento Administrativo Nacional de Estadística.
Figures for Costa Rica are based on data from: Banco Central de Costa Rica and Promotora del Comercio Exterior de Costa Rica.
Figures for Cuba are based on data from: Oficina Nacional de Estadística e Información de la República de Cuba.
Figures for Dominican Republic are based on data from: Banco Central de la República Dominicana and Oficina Nacional de Estadística.
Figures for Ecuador are based on data from: Banco Central de Ecuador.
Figures for El Salvador are based on data from: Banco Central de Reserva de El Salvador.
Figures for Guatemala are based on data from: Banco de Guatemala.
Figures for Guyana are based on data from: Bureau of Statistics Guyana and Bank of Guyana.
Figures for Haiti are based on data from: Banque de la République d'Haiti.
Figures for Honduras are based on data from: Banco Central de Honduras.
Figures for Nicaragua are based on data from: Banco Central de Nicaragua.
Figures for Jamaica are based on data from: Bank of Jamaica and the Statistical Institute of Jamaica.
Figures for México are based on data from: Instituto Nacional de Estadísticas y Geografía.
Figures for Panama are based on data from: Instituto Nacional de Estadística y Censo and Secretaría de Integración Económica Centroamericana (SIECA).
Figures for Paraguay are based on data from: Banco Central de Paraguay.
Figures for Peru are based on data from: Banco Central de Reserva del Perú, Superintendencia Nacional de Aduanas y de Administración Tributaria, and Ministerio de Comercio Exterior y Turismo.
Figures for Suriname are based on data from: Centrale Bank van Suriname.
Figures for Trinidad and Tobago are based on data from: Central Bank of Trinidad \& Tobago and Trinidad \& Tobago Central Statistical Office. Figures for Uruguay are based on data from: Banco Central de Uruguay.
Figures for Venezuela, B.R., are based on data from: Banco Central de Venezuela and Mirror statistics from China, the United States, Japan, the European Union and other Latin American countries.
Figures for global trade trends are based on monthly data from the World Trade Organization (WTO).
Information on prices is based on data from the International Monetary Fund (IMF) and the Organization of the Petroleum Exporting Countries (OPEC).

## 2. Estimations

CARICOM: Trade by partner is estimated using the (intra-monthly) structure of Direction of Trade Statistics (DOTS) of the IMF.
Cuba: The total export and import values for 2017 and 2018 are estimated using the (inter-monthly) DOTS trends.
Venezuela, B.R.: Mirror data are used in conjunction with the Balance of Payments and with the DOTS structure.
Non-monthly values: Monthly figures for Bahamas, Guyana since April 2015, Suriname, Trinidad and Tobago since October 2016, and Venezuela, B.R., are estimated based on quarterly data using the DOTS structure. Monthly data for Panamá for trade by partner for October 2017 through June 2018 are estimated using quarterly data and the DOTS structure. Monthly figures for Cuba are estimated based on annual data using the DOTS structure.
Trade by Main Partners (Table 3 and Figure 2): Missing data are estimated using mirror data and the DOTS structure; data for CARICOM include neither Anguilla nor Montserrat.
Trade by Main Product Categories (Table 6): Figures for Cuba for 2017 and 2018 are estimated using the historic structure; figures for Venezuela, B.R. since October 2015 are estimated using the historic structure.
