DRAFT AMENDMENTS TO THE STANDARD EXTERNAL  
TRADE STATISTICS CLASSIFICATION OF  
EAST CARIBBEAN COMMON MARKET COUNTRIES

Prepared by  
Wilfred L. Whittingham

At a meeting held on 21-22 November 1975 the East Caribbean Common Market Council of Ministers adopted a revised Common External Tariff and recommended that the Tariff be introduced as of 1 January 1976. It should be noted that, while the Tariff revisions consisted mainly of amendments to rates of duty, care was taken to streamline the structure of the Tariff and to include improvements in the sub-divisions for Statistical purposes.

The ECCM Tariff being a "Fully Integrated Tariff" means that all sub-divisions required for external trade statistics purposes are included in the tariff structure. As a result, changes in the tariff structure necessitates changes in the Statistical Classification codes.

Recognizing this need, the ECLA Office for the Caribbean prepared this document setting out the revised tariff item numbers and product descriptions. In addition, the Statistical Classification Code numbers have been assigned on the basis of the Standard International Trade Classification (SITC (R) ) and are consistent with the existing standard External Trade Statistics Classification in use in ECCM countries.

The type of revisions made to the Tariff ranges from changes in tariff numbers through changes in product description and addition of new tariff sub-divisions. The types of changes occurring most frequently are additions of new sub-divisions and changes in the product description. Most of these changes have an effect on the statistical side.

It is hoped that this working paper for the forthcoming meeting of ECCM Statisticians will provide the basis for agreement on the necessary revisions to the Standard External Trade Classification.

(ii)

The ECLA Office for the Caribbean would be willing to prepare a document incorporating these revisions into the existing Standard External Trade Classification if that were the wish of the Governments.

REVISIONS TO ECCM STANDARD EXTERNAL TRADE STATISTICS CLASSIFICATION
